## Last Update: (12/15/99) ABachicha:dal - 2.1.P.0

This policy has been reformatted for placement on Sandia's External Web site.

---

## Background - 2.1.P.1

It is SNL's policy to use commercial-like Best-Value Source Selection practices. SNL seeks to select proposals/offers based on the best combination of price/cost and qualitative merit and to reduce the administrative burden on SNL and offerors.

---

## Scope - 2.1.P.2

SNL's objective is to:

- ensure effective competition,
  - ensure clear solicitation information is provided,
  - ensure selection of the source that will provide the best value (i.e., the best combination of price/cost and qualitative merit) to SNL, and
  - minimize the cost, complexity and cycle time of the solicitation, evaluation, and selection process.
- 

## General - 2.1.P.3

This policy applies to the solicitation document which describes SNL's requirements to potential offerors in a manner which clearly provides all relevant information for an offeror to submit a proposal. SNL's objective in any solicitation document is to obtain proposals which can be evaluated to determine which offeror has the highest probability of success and provides the best value to meet SNL's needs.
